

GEAR HUGGER CONCENTRATED CAR WASH

Biodegradable Concentrated
Shampoo.

DESCRIPTION.

Gear Hugger Concentrated Car Wash is a biodegradable concentrated shampoo, formulated with natural extracts rich in saponins that provide a uniform foam acting as an encapsulant of dirt, facilitating quick cleaning. It has a pleasant eucalyptus aroma.

PROPERTIES AND BENEFITS.

- Excellent rinsing and quick drying.
- It maintains the original shine of the paint.
- Does not leave watermarks.
- Concentrate mixture to dilute in water:

Cleaning Intensity	Dilution Ratios
Heavy	6 oz + 1 Gallon Water
Medium	4 oz + 1 Gallon Water
Low	2 oz + 1 Gallon Water

APPLICATION.

- It is applied indistinctly in manual washing or with pressure equipment on the bodies of cars, trucks, bicycles, motorcycles, trailers, boats and buses.

Directions for use:

- 1.Rinse the surface with water to remove dust and grime that may scratch the paint.
- 2.Dilute concentrate in water before use, 2:1 in bucket* 5:1 in foam cannon.
- 3.Apply with mitt or sponge and wash.
- 4.Rinse from top down and dry with a clean cloth.

*Review the cleaning intensity table.

**It is recommended to wash in the shade.

HEALTH AND SAFETY.

For more information see the Safety Data Sheet (SDS).

CHARACTERISTICS.

	ASTM Method	Typical values
Apperance	Visual	Slightly opaque
Color	Visual	Green
Specific Gravity 15.6 °C	D4052	1.0189
pH @ 100%	D1287	8.35

Note. Typical product properties are current as of the date of publication of this data sheet. These properties are determined by averaging the actual batch data supplied by the manufacturing plants over a period of time. These typical data cannot be guaranteed identical to the products at any specific time. The data provided in this publication is presented as a guide for users of Gear Hugger products. Consult your representative for the latest information.
